

Weaving The Cord of Friendship

-PBC

Late nights talking till the dawn

Secrets that we share

From heartbreaks to moving on

I knew you'd always be there.

Walking together through life's rain

Helping each other ease the pain

Our souls tuned to the same old song.

In silence or cheer, we belong.

Together we stand; we never fall.

Through every trial we heed the call.

With hearts as one, we're ten feet tall.

Friendship's light will never stall.

Through time and space, we'll always blend

In vivid colors that never end

Stitched in moments that we defend

A masterpiece that friends intend.

**Brought light in rooms I never dared
Held my hand when no one cared
Pulled me close when days went slow
Together in the highs and lows.**

**You're my rock when the world's all wrong.
The beat of strength in every song
Through thick and thin, you never fade.
In the darkest times, you've stayed.**

**Life throws punches, and you punch back.
Turning all my Gray to black
Through the highs and all the lows
You're the truth that always shows.**

**Thank you for showing me the way.
In your presence I will stay.
You turned my nights into day.
Grateful echoes all I say.**
