

The Beauty of True Love

-PBC

**True love finds its way through
Shining bright in shades of blue
A beauty only hearts can see
Pure as ocean, wild and free.**

**Stars align, the night sky glows.
In your arms where warmth always flows
Every lifetime brings new shades.
Of love that never truly fades.**

**A thousand years gone, but I'm here still.
Time it bends yet stays unreal
My heart beats loud for you, so clear.
A love that lasts through every year.**
